Modernity, luxury and performance

Our new Aventura 44 will take a special place in the Aventura range thanks to its design and the preliminary study which was carried out by the site / architect couple.

Signed like the Aventura 10 and 34 by the designer Samer LASTA, the Aventura 44 is distinguished by a deck plan and a modern and intelligent design, giving way to friendly outdoor living spaces and marine and particularly studied traffic.

The lines are resolutely fluid and taut with large glass surfaces to create an interior full of light.
